1. To use Library eBooks on your Kindle Voyage, Paperwhite, Touch, or other black & white Kindle model, you need to start these steps on a computer; it will not work directly from the device. Go to www.pindigital.org. Click Sign in to sign in with your Joliet Library card.

2. There are several ways to browse and search for Kindle books. You can type in a title, author, or keyword in the search box, or click Advanced Search for more search options. You can also browse books by using the menu across the top or by clicking any of the featured collections on the main page.

- Locate a book to check out. The format and status is available on the book jacket. It is recommended that you also filter your search results to show Kindle books only. Although most books are compatible with Kindle, there are a few that may not be, as the publisher decides which formats they offer for download.

- When you find a book to check out, click Borrow. Click Loans from the black bar or click the bookshelf icon to access your loans. Click Choose a Format and select Kindle Book.

5. You will be directed to Amazon's website to complete the check out. Click [Get library book](#) from the right hand side.
