INDEPENDENT AUDITOR'S REPORT

July 8, 2025

Members of the Board of Trustees Joliet Public Library Joliet, Illinois

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Joliet Public Library (the Library), a component unit of the City of Joliet, Illinois, as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the Library's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Joliet Public Library, Illinois, as of December 31, 2024, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Library, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Library's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

Auditor's Responsibilities for the Audit of the Financial Statements - Continued

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Library's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Library's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison schedules, and supplementary pension schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Joliet Public Library, a component unit of the City of Joliet, Illinois' basic financial statements. The other supplementary information and supplemental schedule are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and supplemental schedule are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Lauterbach & Amen, LLP

LAUTERBACH & AMEN, LLP

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis December 31, 2024

Our discussion and analysis of the Joliet Public Library's financial performance provides an overview of the Library's financial activities for the fiscal year ended December 31, 2024, please read it in conjunction with the Library's financial statements, located in the basic financial statements section of this report.

FINANCIAL HIGHLIGHTS

- The Library's net position decreased \$252,959 or 1.2 percent, from \$21,255,068 in 2023 to \$21,002,109 in 2024.
- During the year, government-wide revenues totaled \$8,105,666, while government-wide expenses totaled \$8,358,625, resulting in the decrease to net position of \$252,959.
- Total fund balances for the governmental funds were \$3,650,831 at December 31, 2024 compared to a prior year restated balance of \$3,969,106, a decrease of \$318,275 or 8.0 percent.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the Library as a whole and present a longer-term view of the Library's finances.

For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the Library's operation in more detail than the government-wide statements by providing information about the Library's most significant funds.

Government-Wide Financial Statements

The government-wide financial statements provide readers with a broad overview of the Library's finances, in a matter similar to a private-sector business.

The Statement of Net Position reports information on all of the Library's assets/deferred outflows and liabilities/ deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Library is improving or deteriorating. Consideration of other nonfinancial factors, such as changes in the Library's property tax base, is needed to assess the overall health of the Library.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

Management's Discussion and Analysis December 31, 2024

USING THIS ANNUAL REPORT - Continued

Government-Wide Financial Statements - Continued

Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes).

Both of the government-wide financial statements report functions of the Library that are principally supported by taxes and charges for services revenues (governmental activities). The governmental activities of the Library include the culture and recreation function.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Library, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Library only maintains governmental funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the Library's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The Library maintains three individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund and Special Reserve Fund, which are considered major funds, and the Lambert Fund, a nonmajor fund.

The Library adopts an annual appropriated budget for the General Fund, only. A budgetary comparison schedule for the General Fund has been provided to demonstrate compliance with this budget.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Management's Discussion and Analysis December 31, 2024

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. The following tables show that in the case of the Library, assets/deferred outflows exceeded liabilities/deferred inflows by \$21,002,109.

	Net Position		
		12/31/2024	12/31/2023
Current Assets	\$	10,668,497	10,863,081
Capital Assets		20,687,032	21,286,992
Total Assets		31,355,529	32,150,073
Deferred Outflows		1,019,025	1,843,995
Total Assets/Deferred Outflows		32,374,554	33,994,068
Long-Term Debt Outstanding		4,043,851	5,404,961
Other Liabilities		296,362	270,238
Total Liabilities		4,340,213	5,675,199
Deferred Inflows		7,032,232	7,063,801
Total Liabilities/Deferred Inflows		11,372,445	12,739,000
Net Position			
Investment in Capital Assets		20,687,032	19,816,992
Restricted		10,000	10,000
Unrestricted		305,077	1,428,076
Total Net Position		21,002,109	21,255,068

A large portion of the Library's net position, \$20,687,032 or 98.4 percent, reflects its investment in capital assets (for example, land, construction in progress, buildings, black road building, building improvements, furniture and fixtures, equipment, and library materials), less any related debt used to acquire those assets that is still outstanding. The Library uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Library's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion, \$10,000 or 0.1 percent, of the Library's net position represents resources that are subject to external restrictions on how they may be used. The remaining \$305,077, or 1.5 percent, represents unrestricted net position and may be used to meet the government's ongoing obligations to citizens and creditors.

Management's Discussion and Analysis December 31, 2024

GOVERNMENT-WIDE FINANCIAL ANALYSIS - Continued

	Change in Net Position			
	12/31/2024 12/31/20			
Revenues				
Program Revenues				
Charges for Services	\$	59,448	59,407	
Operating Grants/Contributions		1,508,734	5,423,742	
General Revenues				
Property Taxes		6,329,592	6,124,833	
Interest		169,157	363,740	
Miscellaneous		38,735	78,049	
Total Revenues		8,105,666	12,049,771	
Expenses				
Culture and Recreation		8,344,127	6,792,320	
Interest on Long-Term Debt		14,498	62,627	
Total Expenses		8,358,625	6,854,947	
Change in Net Position		(252,959)	5,194,824	
Net Position - Beginning		21,255,068	16,060,244	
Net Position - Ending		21,002,109	21,255,068	

Net position of the Library's governmental activities decreased from \$21,255,068 to \$21,002,109.

Revenues of \$8,105,666 fell short of expenses of \$8,358,625, resulting in the decrease in net position for the current year of \$252,959.

Governmental Activities

In the current year, governmental net position decreased \$252,959, or 1.2 percent. Total revenues decreased \$3,944,105 over prior year (\$12,049,771 in 2023 compared to \$8,105,666 in 2024). Total expenses increased \$1,503,678 over the prior year (\$6,854,947 in 2023 compared to \$8,358,625 in 2024). The decrease in the governmental net position is mainly due to an increase of expenses for the Library and the decrease of operating grants that the Library received in the current fiscal year.

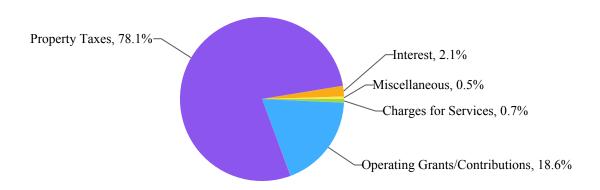

Management's Discussion and Analysis December 31, 2024

GOVERNMENT-WIDE FINANCIAL ANALYSIS - Continued

Governmental Activities - Continued

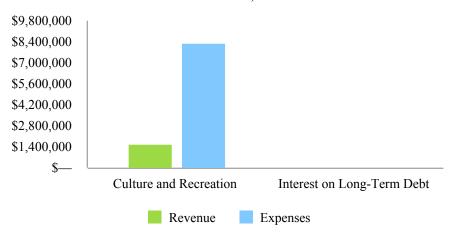

The following table graphically depicts the major revenue sources of the Library. It depicts very clearly the reliance of property taxes to fund governmental activities.

Revenues by Source - Governmental Activities December 31, 2024

The 'Expenses and Program Revenues' Table below identifies those governmental functions where program expenses greatly exceed revenues. The culture and recreation function charges user fees for services provided. The user fees charged do not cover the expenses, which furthermore signifies the Library's reliance on general revenues such as property taxes to fund operations.

Expenses and Program Revenues - Governmental Activities December 31, 2024

Management's Discussion and Analysis December 31, 2024

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the Library uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the Library's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the governmental funds reported combined ending fund balances of \$3,650,831 which is a decrease of \$318,275 or 8.0 percent from last year's ending fund balance of \$3,969,106.

The General Fund had an increase of \$137,257 primarily due to an increase in property tax and intergovernmental revenues when compared to the prior fiscal year.

The Special Reserve Fund decreased \$455,532 due to the early pay-off of the general obligation bonds in the amount of \$1,470,000.

GENERAL FUND BUDGETARY HIGHLIGHTS

During the year, no supplemental amendments were made to the budget for the General Fund.

The General Fund actual revenues were higher than budgeted revenues. Actual revenues for the current year were \$7,074,786, compared to budgeted revenues of \$7,020,970. This resulted primarily from interest revenues generating \$106,043 more than its budgeted amount. Property taxes, grants, charges for services, and miscellaneous revenues were all lower than their budgeted revenue.

The General Fund actual expenditures were lower than budgeted expenditures. Actual expenditures totaled \$6,939,443, while budgeted expenditures totaled \$7,170,970. This was due to all expense categories besides contractual services coming in below budget for the fiscal year.

Management's Discussion and Analysis December 31, 2024

CAPITAL ASSETS

The Library's investment in capital assets for its governmental activities as of December 31, 2024 was \$20,687,032 (net of accumulated depreciation). This investment in capital assets includes land, buildings, black road building, building improvements, furniture and fixtures, equipment, and books.

	Capital Assets -	Capital Assets - Net of Depreciation		
	12/31/2024	12/31/2023		
Land	\$ 719,919	719,919		
Buildings	13,774,692	14,312,658		
Black Road Building	2,718,574	2,806,340		
Building Improvements	590,500	683,319		
Equipment	283,219	97,262		
Library Materials	2,600,128	2,667,494		
Total	20,687,032	21,286,992		

This year's additions to capital assets included:

Black Road Building	\$ 62,025
Equipment	245,057
Library Materials	 524,596
	 831,678

Additional information on the Library's capital assets can be found in Note 3 of this report.

DEBT ADMINISTRATION

At year-end, the Library had no outstanding debt. During the current year, the Library made a lump sum payment to the City in the amount of \$1,470,000. Additional information on the Library's long-term debt can be found in Note 3 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The equalized assess valuation (EAV) for the Library for fiscal year December 31, 2024 is \$4,251,455,569. This represents an increase in EAV of \$299,061,510 over prior year's EAV.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Library's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be directed to the Board of Trustees, Joliet Public Library, 150 North Ottawa Street, Joliet, IL 60432.

BASIC FINANCIAL STATEMENTS

The basic financial Statements include integrated sets of financial statements as required by the GASB. The sets of statements include:

Government-Wide Financial Statements

Fund Financial Statements

Governmental Funds

In addition, the notes to the financial statements are included to provide information that is essential to a user's understanding of the basic financial statements.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities - Governmental Activities

For the Fiscal Year Ended December 31, 2024

Changes in Net Position of Governmental Activities

Net Change in Fund Balances - Total Governmental Funds	\$ (318,275)
Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the	
Statement of Activities the cost of those assets is allocated over their estimated	
useful lives and reported as depreciation expense.	
Capital Outlays	831,678
Depreciation Expense	(1,431,638)
Disposals - Cost	(768,832)
Disposals - Accumulated Depreciation	768,832
The net effect of deferred outflows (inflows) of resources related	
to the pensions not reported in the funds.	
Change in Deferred Items - IMRF	(691,057)
The issuance of long-term debt provides current financial resources to	
governmental funds, while the repayment of the principal on long-term	
debt consumes the current financial resources of the governmental funds.	
Changes in Compensated Absences Payable	(23,886)
Changes in Net Pension Liability - IMRF	(89,781)
Retirement of Debt	 1,470,000

(252,959)

Notes to the Financial Statements December 31, 2024

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Joliet Public Library (the Library), a component unit of the City of Joliet, provides services primarily to citizens of the City of Joliet (the City), Illinois, including lending or renting materials to adults and children to meet their informational, recreational, and educational needs.

The government-wide financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant of the Library's accounting policies established in GAAP and used by the Library are described below.

REPORTING ENTITY

The Library is a municipal corporation governed by an elected Board of Trustees. The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units are, in substance, part of the primary government's operations, even though they are legally separate entities. Thus, blended component units are appropriately presented as funds of the primary government. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is both legally and substantively separate from the government. Management has determined that there are no fiduciary component units that are required to be included in the financial statements of the Library as pension trust funds and there are no discretely component units to include in the reporting entity.

BASIS OF PRESENTATION

Government-Wide Statements

The Library's basic financial statements include both government-wide (reporting the Library as a whole) and fund financial statements (reporting the Library's major funds). The Library's culture and recreation services are classified as governmental activities.

In the government-wide Statement of Net Position, the governmental activities column is presented on a consolidated basis and reported on a full accrual, economic resource basis, which recognizes all long-term assets/deferred outflows and receivables as well as long-term debt/deferred inflows and obligations. The Library's net position is reported in three parts: net investment in capital assets; restricted; and unrestricted. The Library first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the Library's functions. These functions are supported by general government revenues (property taxes, interest, and charges for services, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, which include 1) changes to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

The net costs (by function) are normally covered by general revenue (property tax, interest, etc.). The Library does not allocate indirect costs. This government-wide focus is more on the sustainability of the Library as an entity and the change in the Library's net position resulting from the current year's activities.

Notes to the Financial Statements December 31, 2024

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

BASIS OF PRESENTATION - Continued

Fund Financial Statements

The financial transactions of the Library are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets/deferred outflows, liabilities/deferred inflows, fund equity, revenues and expenditures/expenses. The Library's funds are all reported as governmental funds. The emphasis in fund financial statements is on the major funds.

GASB Statement No. 34 sets forth minimum criteria (percentage of the assets/deferred outflows, liabilities/deferred inflows, revenues or expenditures/expenses) for the determination of major funds. The Library electively added funds, as major funds, which either had debt outstanding or specific community focus. A fund is considered major if it is a primary operating fund of the Library or meets the following criteria:

Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds.

The various funds are reported by generic classification within the financial statements. The following fund types are used by the Library:

Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Library:

General Fund is the general operating fund of the Library. It accounts for all revenues and expenditures of the Library which are not accounted for in other funds. The General Fund is a major fund.

Capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by business-type/proprietary funds. The Special Reserve Fund, a major fund, is used to preserve funds meant for a comprehensive remodel of the Ottawa Street building.

Permanent funds are used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs, that is, for the benefit of the government or its citizenry. The Library maintains one nonmajor permanent fund.

Notes to the Financial Statements December 31, 2024

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

Measurement Focus

On the government-wide Statement of Net Position and the Statement of Activities, governmental activities are presented using the economic resources measurement focus as defined below. In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate.

All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets/ deferred outflows and liabilities/deferred inflows are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

The accounting objectives of the "economic resources" measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets/deferred outflows, liabilities/deferred inflows (whether current or noncurrent) associated with their activities are reported.

Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities, governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability/deferred inflow is incurred or economic asset used. Revenues, expenses, gains, losses, assets/deferred outflows, and liabilities/deferred inflows resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available." Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year end.

The Library recognizes property taxes when they become both measurable and available in accordance with GASB Codification Section P70. A sixty-day availability period is used for revenue recognition for all other governmental fund revenues. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are recognized when due.

In applying the susceptible to accrual concept under the modified accrual basis, those revenues susceptible to accrual are property taxes, sales and use taxes, franchise taxes, utility taxes, hotel/motel taxes, fines, interest revenue, and charges for services. All other revenues are not susceptible to accrual because generally they are not measurable until received in cash

Notes to the Financial Statements December 31, 2024

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND FUND BALANCE/ NET POSITION

Cash and Investments

Cash and cash equivalents on the Statement of Net Position are considered to be cash on hand, demand deposits, and and short-term investments with original maturities of three months or less from the date of purchase.

Investments are generally reported at fair value. Short-term investments are reported at cost, which approximates fair value. For investments, the Library categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. All of the Library's investments are in 2a7-like investment pools that are measured at the net asset value per share determined by the pool.

Receivables

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivables balances for governmental activities include property taxes.

Interfund Receivables, Payables and Activity

Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers.

Capital Assets

Capital assets purchased or acquired with an original cost of \$2,500 or more, are reported at historical cost or estimated historical cost. Contributed assets are reported at acquisition value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. General capital assets are long-lived assets of the Library as a whole. When purchased, such assets are recorded as expenditures in the governmental funds and capitalized. The valuation basis for general capital assets is historical cost, or where historical cost is not available, estimated historical cost based on replacement costs.

Notes to the Financial Statements December 31, 2024

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND FUND BALANCE/ NET POSITION - Continued

Capital Assets - Continued

Depreciation on all assets is computed and recorded using the straight-line method of depreciation over the following estimated useful lives:

Buildings and Black Road Building 45 Years

Building Improvements 10 - 30 Years

Furniture, Fixtures, and Equipment 5 - 20 Years

Library Materials 10 Years

Deferred Outflows/Inflows of Resources

Deferred outflow/inflow of resources represents a consumption/acquisition of net assets that applies to a future period and therefore will not be recognized as an outflow of resources (expense)/inflow of resources (revenue) until that future time

Compensated Absences

Full time Library employees can earn up to 30 days of vacation annually after being employed for over 20 years. Upon termination, unused vacation time is paid out. Full time employees earn one sick day per month, and sick days may accrue up to 90 days.

Long-Term Obligations

In the government-wide financial statements, long-term obligations are reported as liabilities in the governmental activities on the Statement of Net Position. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenses at the time of issuance.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Notes to the Financial Statements December 31, 2024

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND FUND BALANCE/NET POSITION - Continued

Net Position

In the government-wide financial statements, equity is classified as net position and displayed in three components:

Net Investment in Capital Assets - Consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted - Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

Unrestricted - All other net position balances that do not meet the definition of "restricted" or "net investment in capital assets."

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumption that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

BUDGETARY INFORMATION

The Library annually submits a budget, levy and appropriation to the City of Joliet, Illinois (the City). The budget, levy and appropriation is prepared on the same basis and uses the same accounting practices as are used in the fund financial statements.

An annual appropriated budget is adopted for the General (Library Operation) Fund. Unexpended budget amounts lapse at the end of the budget year. Spending controls for the fund are established by the amount of expenditures budgeted for the fund, but management control is exercised at budgetary line level items.

Expenditures may not exceed appropriations. All budget revisions at this level are subject to final review by the City. Within these control levels, management may transfer appropriations without City approval.

Notes to the Financial Statements December 31, 2024

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY - Continued

DEFICIT FUND BALANCE

The following fund had deficit fund balance as of the date of this report:

Fund	Deficit		
Special Reserve	\$	452,960	

NOTE 3 - DETAIL NOTES ON ALL FUNDS

DEPOSITS AND INVESTMENTS

Permitted Deposits and Investments - Illinois Statutes authorizes the Library to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, obligations of States and their political subdivisions, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services, Illinois Funds and the Illinois Public Reserves Investment Management Trust.

The Illinois Funds is an investment pool managed by the Illinois Public Treasurer's Office which allows governments within the State to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company. Investments in Illinois Funds are valued at the share price, which is the price for which the investment could be sold.

The Illinois Public Reserves Investment Management Trust (IPRIME) is an investment opportunity and cash management service for Illinois Municipal Treasurers acting on behalf of counties, townships, cities, towns, villages, special road districts, public water supply districts, fire protection districts, drainage districts, levee districts, sewer districts, housing authorities, and all other political corporations or subdivisions of the State of Illinois. Participation in IPRIME is voluntary. IPRIME is not registered with the SEC as an Investment Company. Investments in IPRIME are valued at the share price, the price for which the investment could be sold.

Deposits. At year-end, the carrying amount of the Library's deposits totaled \$616,346 and the bank balances totaled \$637,423. In addition, the Library has \$2,273 invested in the Illinois Funds and \$3,274,820 invested in IPRIME at year-end, which is measured as net asset value per share as determined by the pool.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, investments should be managed to meet liquidity needs for the current month plus on month (based on forecasted needs) and any reasonably anticipated special needs. The Library's investments in the Illinois Funds and IPRIME have average maturities of less than one year.

Notes to the Financial Statements December 31, 2024

NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

DEPOSITS AND INVESTMENTS - Continued

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Library limits its exposure to credit risk by primarily investing in obligations guaranteed by the United States Government or securities issued by agencies of the United States Government explicitly or implicitly guaranteed by the United States Government. At year-end, the Library's investment in the Illinois Funds was rated AAAmmf by Fitch and IPRIME was rated AAAm by Standard & Poor's.

Custodial Credit Risk. In the case of deposits, this is the risk that in the event of a bank failure, the Library's deposits may not be returned to it. The Library's investment policy requires the pledging of collateral of all bank balances in excess of the federal depository insurance with the collateral held by a third party in the Library's name. At year-end, the entire amount of the bank balance of deposits was covered by collateral, federal depository or equivalent insurance.

For an investment, this is the risk that in the event of the failure of the counterparty, the Library will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Library's investment policy does not specifically address custodial credit risk for investments. The Library's investments in the the Illinois Funds and IPRIME are not subject to custodial credit risk.

Concentration Risk. This is the risk of loss attributed to the magnitude of the Library's investment in a single issuer. The Library's investment policy does not address concentration risk. At year-end, the Library does not have any investments over 5 percent of the total cash and investment portfolio (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investment).

PROPERTY TAXES

Property taxes for 2023 attach as an enforceable lien on January 1, on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by the County and are payable in two installments, on or about June 1 and September 1. The County collects such taxes and remits them periodically to the Library. The allowance for uncollectible taxes has been stated at 1% of the tax levy, to reflect actual collection experience.

Notes to the Financial Statements December 31, 2024

Total Net Capital Assets	21,286,992	(599,960)		20,687,032

Depreciation expense of \$1,431,638 was charged to the culture and recreation function.

Notes to the Financial Statements December 31, 2024

NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

INTERFUND BALANCES

Interfund balances result from the time lag between when transactions are recorded in the accounting system and payments between funds are made. The composition of interfund balances as of the date of this report, is as follows:

Receivable Fund	Payable Fund	Amount		
			_	
General	Special Reserve	\$	452,960	

INTERFUND TRANSFERS

Interfund transfers for the year consisted of the following:

Transfer In	Transfer Out	Amount	
General	Nonmajor	\$	1,914

Transfers are used to move unrestricted revenues collected in the Lambert Fund to finance various programs accounted for in the General Fund in accordance with budgetary authorizations.

LONG-TERM DEBT

General Obligation Bonds

The City issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the City. The City and Library have an intergovernmental agreement for the Library's portion of the bonds. The portion of the Library's General obligation bonds currently outstanding are as follows:

	Beginning			Ending	
Issue	Balances	Issuances	Retirements	Balances	
General Obligation Bonds of 2020B - Due in annual installments of \$300,000 to \$5,605,000 plus interest at 1.00% through December 15, 2027.	\$ 1,470,000	_	1,470,000	_	

Notes to the Financial Statements December 31, 2024

NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

LONG-TERM DEBT - Continued

Long-Term Liability Activity

Changes in long-term liabilities during the fiscal year were as follows:

Type of Debt	Beginning Balances	Additions	Deductions	Ending Balances	Amounts Due within One Year
,					
Compensated Absences	\$ 208,011	47,772	23,886	231,897	46,379
Net Pension Liability - IMRF	3,768,552	89,781		3,858,333	_
General Obligation Bonds	1,470,000	_	1,470,000	_	
					_
	5,446,563	137,553	1,493,886	4,090,230	46,379

The compensated absences and the net pension liability is generally liquidated by the General Fund and the general obligation bonds are liquidated by the Special Reserve Fund.

NET POSITION CLASSIFICATIONS

Net investment in capital assets was comprised of the following as of December 31, 2024:

Governmental Activities Capital Assets - Net of Accumulated Depreciation	\$ 20,687,032
Less Capital Related Debt:	
Net Investment in Capital Assets	 20,687,032

FUND BALANCE CLASSIFICATIONS

In the governmental funds financial statements, the Library considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The Library first utilizes committed, then assigned and then unassigned fund balance when an expenditure is incurred for purposes for which all three unrestricted fund balances are available.

Nonspendable Fund Balance. Consists of resources that cannot be spent because they are either: a) not in a spendable form; or b) legally or contractually required to be maintained intact.

Notes to the Financial Statements December 31, 2024

NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

FUND BALANCE CLASSIFICATIONS - Continued

Restricted Fund Balance. Consists of resources that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance. Consists of resources constrained (issuance of an ordinance) to specific purposes by the government itself, using its highest level of decision-making authority, the Board of Trustees; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.

Assigned Fund Balance. Consists of amounts that are constrained by the Board of Trustees' intent to be used for specific purposes but are neither restricted nor committed. Intent is expressed by a) the Board of Trustees itself or b) a body or official to which the Board of Trustees has delegated the authority to assign amounts to be used for specific purposes. The Library's highest level of decision-making authority is the Board of Trustees, who is authorized to assign amounts to a specific purpose.

Unassigned Fund Balance. Consists of residual net resources of a fund that has not been restricted, committed, or assigned within the General Fund and deficit fund balances of other governmental funds.

Minimum Fund Balance Policy. The Library's policy manual states that the General Fund should maintain a minimum fund balance equal to 25% of budgeted operating expenditures.

The following is a schedule of fund balance classifications for the governmental funds as of the date of this report:

		Capital		
		Projects	Nonmajor	
	_	Special	Permanent	
	General	Reserve	Lambert	Totals
Restricted Lambert	\$ —	_	10,000	10,000
Lamoert	Φ —		10,000	10,000
Assigned				
Special Projects	58,747			58,747
Unassigned	4,035,044	(452,960)	_	3,582,084
Total Fund Balances	4,093,791	(452,960)	10,000	3,650,831

Notes to the Financial Statements December 31, 2024

NOTE 4 - OTHER INFORMATION

RISK MANAGEMENT

The Library is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; natural disasters; and injuries to the Library's employees. The Library has purchased insurance from private insurance companies. Risks covered included certain types of liabilities and bonds. The Library currently reports all its risk management activities in the General Fund. There were no significant changes in insurance coverages from the prior year and settlements did not exceed insurance coverage in any of the past three

CONTINGENT LIABILITIES

Litigation

From time to time, the Library is party to various pending claims and legal proceedings with respect to employment, civil rights, property taxes and other matters. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and the Library attorney that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the Library's financial position or results of operations.

Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Library expects such amounts, if any, to be immaterial.

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN

Illinois Municipal Retirement Fund (IMRF)

The Library contributes to the Illinois Municipal Retirement Fund (IMRF), a defined benefit agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local governments and school districts in Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole, but not by individual employer. That report may be obtained online at www.imrf.org. The benefits, benefit levels, employee contributions, and employer contributions are governed by Illinois Compiled Statutes (ILCS) and can only be amended by the Illinois General Assembly.

Notes to the Financial Statements December 31, 2024

NOTE 4 - OTHER INFORMATION - Continued

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN - Continued

Plan Description

Plan Administration. The Library's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The Library's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

Benefits Provided. IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired *on or after* January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96.

Notes to the Financial Statements December 31, 2024

NOTE 4 - OTHER INFORMATION - Continued

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN - Continued

Illinois Municipal Retirement Fund (IMRF) - Continued

Benefits Provided - Continued. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Plan Membership. As of December 31, 2024, the measurement date, the following employees were covered by the benefit terms:

> **Active Plan Members** 98

A detailed breakdown of IMRF membership for the City and the Library combined is available in the City of Joliet's annual comprehensive financial report.

Contributions. As set by statute, the Library's Regular Plan Members are required to contribute 4.50% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. For the year-ended December 31, 2024, the Library's contribution was 14.23% of covered payroll.

Net Pension Liability. The Library's net pension liability was measured as of December 31, 2024. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation performed, as of December 31, 2024, using the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Fair Value
Actuarial Assumptions Interest Rate	7.25%
Salary Increases	2.85% to 13.75%
Cost of Living Adjustments	2.75%
Inflation	2.25%

Notes to the Financial Statements December 31, 2024

NOTE 4 - OTHER INFORMATION - Continued

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN - Continued

Illinois Municipal Retirement Fund (IMRF) - Continued

Plan Descriptions - Continued

Actuarial Assumptions - Continued. For non-disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 108.0%) and Female (adjusted 106.4%) tables, and future mortality improvements projected using scale MP-2021. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2021. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2021.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

		Long-Term Expected Real
Asset Class	Target	Rate of Return
Fixed Income	24.50%	5.20%
Domestic Equities	34.50%	4.35%
International Equities	18.00%	5.40%
Real Estate	10.50%	6.40%
Blended	11.50%	4.85% - 6.25%
Cash and Cash Equivalents	1.00%	3.60%

Discount Rate

The discount rate used to measure the total pension liability was 7.25%, the same as the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that Library contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all project future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the net pension liability of the Library calculated using the discount rate as well as what the Library's net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

		Current				
	1% Decrease	Discount Rate	1% Increase			
	(6.25%)	(7.25%)	(8.25%)			
Net Pension Liability	\$ 6,968,815	3,858,333	1,364,634

2029	_	_
Thereafter	_	_
Total	754,47	6

Notes to the Financial Statements December 31, 2024

NOTE 4 - OTHER INFORMATION - Continued

OTHER POST-EMPLOYMENT BENEFITS

The Library has evaluated its potential other post-employment benefits liability. Former employees who choose to retain their rights to health insurance through the Library are required to pay 100% of the current premium. However, there is minimal participation. As the Library provides no explicit benefit, and there is minimal participation, there is no material implicit subsidy to calculate in accordance with GASB Statement No. 75, *Accounting and Financial Reporting for Post-Employment Benefits Other Than Pensions*. Therefore, the Library has not recorded a liability as of December 31, 2024.

OTHER SUPPLEMENTARY INFORMATION

Other supplementary information includes financial statements and schedules not required by the GASB, nor a part of the basic financial statements, but are presented for purposes of additional analysis.

Such schedule includes:

Budgetary Comparison Schedule:

General Fund

INDIVIDUAL FUND DESCRIPTIONS

GENERAL FUND

The General Fund is used to account for all financial resources except those required to be accounted for in another fund.

CAPITAL PROJECTS FUND

Capital Projects Fund are used to account for all resources used for the acquisition of capital facilities by a governmental unit.

Special Reserve Fund

The Special Reserve Fund is used to preserve funds meant for a comprehensive remodel of the Ottawa Street building.

PERMANENT FUND

Permanent Funds are used to account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs, that is, for the benefit of the government or its citizenry.

Lambert Fund

The Lambert Fund is used to account for cleaning and maintenance of a portrait that is held at the Library and was established by a former Library patron.
